Illuminations

Psalm 119:105

Lighting Your Path Toward Excellence

ILLUMINATIONS SCHEDULER SYSTEM

We have designed *Illuminations* to be exceedingly flexible so you can create a custom curriculum just for your family. The scheduler system makes it easy for you to choose, customize, and organize your weekly schedules.

Choose Your Subjects

Illuminations comes preloaded with schedules for a multitude of subjects for your K–12 students. (See the Curriculum and Literature Checklist for a complete listing!) First, choose which subjects you would like to place in your custom schedule. After creating your schedule, it is simple to

- open the *Illuminations* lesson plans and literature study guides
- rearrange the order of subjects
- add custom subjects
- rename subjects
- print multiple weeks
- print a schedule for a full year of a single subject
- change subject colors so you can color-code by student, by activity, or by whatever suits YOUR needs
- save your customized schedule for later use

Tutorial Screencast (Click here!)

Illuminations contains detailed lesson plans and a wide range of supplements, while the scheduler provides a concise overview of assignments for each subject. The scheduler also functions as a home planner to keep track of appointments, library due dates, chores, extracurricular activities, or even meal planning!

The schedules are also customizable. Use the prescheduled subjects or enter your own text, change assignments, and copy and paste to create a schedule designed especially for you. If you change your mind, you can always go back to the original schedule with the Revert to Original Assigment option.

We hope *Illuminations* will help your family's education thrive!
