Illuminations contains detailed lesson plans and a wide range of supplements, while the scheduler provides a concise overview of assignments for each subject. The scheduler also functions as a home planner to keep track of appointments, library due dates, chores, extracurricular activities, or even meal planning!

The schedules are also customizable. Use the prescheduled subjects or enter your own text, change assignments, and copy and paste to create a schedule designed especially for you. If you change your mind, you can always go back to the original schedule with the Revert to Original Assignment option.

We hope *Illuminations* will help your family's education thrive!
